

Getting Started in Motorsport

If you are new to motorsport, you're probably wondering what you need to get involved? BLCC (Bathurst Light Car Club) offers both dirt events, Motorkhanas and Khanacross, as well as tarmac sprint events on various section of Mt Panorama.

Your First Event

If you're looking to get involved for your very first time, a great place to start is a Come n Try event at our Motorkhanas. For a small fee, your CAMS license is covered for the day and you can run for part of the day. We can lend you one of the club cars if you don't have one, as well as provide a helmet. All you need to do is show up early and bring long sleeve and long legged clothing.

To be eligible for Come and Try, you must have never held a CAMS license.

Regular Competition

If you're looking to get involved more frequently, there's a list of things you need for each event:

- A car. Almost anything will do as long as it's mechanically sound, in good condition and meets the Supplementary Regulations for each event. Supp Regs are available about a month before each event, you can find them by clicking the event in our event calendar.
- A club membership with a CAMS affiliated club, you're welcome to join BLCC [here](#)
- A CAMS license, either a L2S (Level 2 Speed) for speed/tarmac events, or L2NS (Level 2 Non-speed) for our khana dirt events. If you intend to do both, you only need an L2S
- A helmet that meets CAMS Schedule D
- A fire extinguisher that meets CAMS Schedule H. It needs to be mounted in your car within reach of the driver.
- Age Requirements. For Non-speed events (e.g. motorkhanas and khanacross), you need to be 12 years or older, for speed events (e.g. hill climbs) you need to be 14 years or older.

Other than that, each event has different requirements depending on your car, your class and the event type. Have a read through the Supplementary Regulations for the event you want to enter!
